### Scenario

You have just been to a party with friends that you and your friend Tomoko know. She would LOVE to hear what happened and what everyone was wearing, but she had to go back to Japan last week and couldn't go. Write her a letter, telling her about who was there, what they were wearing, and what was happening at the party. Remember to open with a greeting and close your letter. Try to write well, using some simple sentences, but striving for mostly more complex ones so that she will be surprised at how good your Japanese has become.
