Scenario

For a community service project, your Japanese class is thinking about “adopting” a family for the holidays. However, some of your classmates are not yet convinced that is a good idea. Create a visual presentation about how you could help a family with children over the holidays, what sort of things you might collect to give them, and other ways you could interact with the family. Your presentation should include an opening, at least 4-5 content statements, and a closing. Use 2 – 3 minutes for your presentation.
